TxDOT Adopt-A-Highway approval

Public email excerpt | Source date: 2026-10-06

Texas Department of Transportation / El Paso District

Public transcription of the approval message, not the signed agreement. Personal email addresses, recipient lists, signatures and mail-system identifiers are omitted. The original is retained privately. Edition 1.1 adds the earlier application and agreement correspondence and our acknowledgment. The September 16 section is a labeled summary, not a verbatim quotation. Private application and signing links are excluded.

Approval is documented. This record does not confirm that signs have been installed or that a cleanup has taken place.

September 15, 2026 / Application acknowledgment (excerpt)

Your application has been submitted. Your local coordinator will contact you with next steps.

Thank you for helping keep Texas highways litter-free.

September 16, 2026 / Agreement coordination (summary)

TxDOT advised that a new agreement would arrive through DocuSign, described routing to two Harbor Alliance representatives, and requested confirmation after both had signed. The coordinator requested signing within five business days to retain the segment hold.

This message describes the signing process. It is not, by itself, proof of signatures or final approval.

October 6, 2026 / Approval message

RE: HARBOR ALLIANCE INC

Your Agreement has been approved!

Your group's Adopt-A-Highway signs will be ordered and installed. Please allow approximately 1-2 months for completion of this process. If you have not received an update within that timeframe, please contact me for a status update.

Please note that, for safety reasons, your group may not conduct any pickups until the signs have been installed.

Thank you for your patience and cooperation. If you have any questions, please feel free to reach out.

October 7, 2026 / Harbor Alliance acknowledgment (excerpt)

This is great news, thank you [coordinator name omitted] for the update
